10TH BIRTHDAY IS OBSERVED
BY SOUTH PUTNAM
CLUB MONDAY

The tenth anniversary of the Cloverdale Lions club was observed Monday night with a buffet dinner, served by a committee from the club, including Adrian Morrison, Gene McCullough and Glenn Allender.

They served cold meats, baked beans, celery, olives, and ice cream and cake, along with king-sized (full quarts) of ice tea or lemonade. It kept them from pouring so many small glasses of drinks and even with the quart sizes, some went back more than once. They also had plenty of food and it was thoroughly enjoyed.

Foster presented "Butch" Allender with a fine squirrel's tail and Mr. Larkin and the retiring secretary, Fred Sargent, were each given a past president and secretary's pin by Mr. Allender. He had also served as Tail Twister until some time ago, but he was still up to his old tricks and nicked everyone present for a buck.

CLARK ARRIVES FOR ARMISTICE TALK WITH RHEE

FAR EASTERN COMMANDER Gen. Mark Clark (center) arrives in Seoul for a personal conference with South Korean President Syngman Rhee (right), is greeted at the airport by Lt. Gen. Maxwell Taylor (left). After his meeting with Rhee, Clark said an armistice could be signed without assurance of cooperation from Korea, but the chances of success of such a truce were doubtful.

KLEE'S FINAL DECISION IN CLARK'S HANDS

SEOUL, Korea, June 23.—(UP)—Gen. Mark W. Clark took back to Tokyo today President Syngman Rhee's "final" decision to continue fighting in Korea unless the United Nations makes three major changes in the armistice now awaiting signature.

Clark said Rhee outlined his three-point plan during their 70-minute meeting Monday and told him "we wish to continue the war" unless the U. N. accepts it. The plan called for:

1. Withdrawal of the Chinese forces or, if that cannot be attained, simultaneous withdrawal of the Chinese and U. N. forces from Korea—leaving the South and North Korean armies in control.

This plan had been suggested earlier by the Communists at Panmunjom but the U. N. rejected it.

2. Signing of a mutual security pact between the United States and South Korea prior to an armistice.

3. Limiting the post-armistice peace conference to three months, with hostilities resuming if no satisfactory settlement of the Korean problem is reached.

The U. N. Far Eastern commander had asked Rhee to think it over and returned to the presidential mansion for a 15-minute meeting today only to hear that the 78-year old president's position was unchanged.

Clark left immediately for Tokyo to transmit Rhee's decision to Washington. He refused to comment to newsmen at Tokyo on his discussions with Rhee.

A member of Rhee's cabinet said he did not believe Clark would be able to settle the differences between Rhee and the U. N., indicating this would have to be undertaken at a "higher level."

He presumably referred to the arrival in the Far East Wednesday of Assistant Secretary of State Walter Robertson and Army Chief of Staff Gen. J. Lawton Collins.

The truce will be delayed for some time, the cabinet member predicted.

Anti-Red Chinese Beg To Be Shot

PUSAN, Korea, June 23.—(UP)—Korean national police said today 57 escaped Chinese prisoners they had captured begged to be shot rather than "return to Communism."

The officers said they returned the anti-Communist Chinese to United Nations custody on orders of President Syngman Rhee, who released some 26,000 North Korean prisoners last Thursday.

Rhee's benevolence toward the anti-Communist North Korean captives, who escaped with the help of South Korean guards, did not extend to the Chinese, however, and he ordered a roundup of 113 who had fled a prison hospital.

A Korean police official supervising the roundup said the Chinese pleaded "not to be taken back to prison camp" because they feared they eventually would be returned to the Communists.

"They said they would rather be shot than return to Communism," he said. "They said they wanted to go to Formosa."

IN MEMORY

In loving memory of Alpha Vaughn who passed away June 24, 1950.
The music has not ceased. The song
Has only taken wings and soared
To where all things of beauty live
And all of losses are restored.
And through the fading echoes come
The same, sweet, hopeful strains
That tell
The music of true love goes on;
God lives and all is well.

Fishing Fun

Several local people, who are boating enthusiasts, have been going down to Bloomington to the new lake that has been recently opened there. We have heard many of them say that it was a nice body of water, and that they were going to spend lots of time at that spot. Now comes the good word. I have talked to a few of those people who have also toured beautiful Cagle Lake, and all of them say that they think we are going to have a much finer spot in our own back yard. Especially are they interested in the huge swimming beach under construction at Cagle. We can understand such enthusiasm, because nowhere in this part of the state can you find a beautiful sand beach that is more than a half mile long. How lucky can we get, neighbors???

Girl, 8, Missing Since Saturday

LOS ANGELES, Calif., June 23.—(UP)—Authorities wrestled today with conflicting clues in their search for blonde, blue-eyed Stella Darlene Nolan, missing eight-year-old girl feared to be a kidnap victim.

The "hottest" lead came from Stockton, Calif., 300 miles north of here, where police said taxicab driver William A. McCleod "definitely" identified the girl he saw slip from a car as Stella Darlene.

In Compton, on the outskirts of Los Angeles, the Rev. Joseph Crumley found a blood-soaked child's pillow in a box in an alley. The pillow lay about four miles from Norwalk, Calif., where the girl disappeared.

Meanwhile, authorities searched for the natural mother of the pretty little eight-year-old girl after it was disclosed that the missing child was adopted.

During questions by Sheriff Eugene W. Biscailuz and his aides, Mrs. Owen Nolan, 40, admitted she and her husband, a retired Navy chief petty officer, had not legally adopted the girl, who disappeared Saturday.

She said the child is the daughter of an ex-marine and a former San Diego waitress. Mrs. Nolan said they never had contested her right to the child. The girl's real mother is Mrs. Betty Jean Stalcup, last reported in Denver in 1948. The father was not identified.

ST. LOUIS, June 23.—(UP)—Kenneth B. Jackson, a quiet suburbanite with only one suit of clothes, today faced accusations of embezzling \$91,000 from the bank where he worked for 35 years.

ONE LIFE DOWN AND EIGHT MORE TO GO SYRACUSE, N. Y. (UP)—James E. Knapp couldn't understand why his car's motor cough-

ed and sputtered.

"It sounded as if the bottom fell out," he said.

He got out and looked under the hood. Pinned under the fan

belt he saw "a big blob of matted fur."

He borrowed some tools and went to work—and released his Angora cat, apparently none the worse for wear.

DR. REIDAR F. SOGNAES of Harvard's dental school says that in another thousand years we won't have a tooth left. That's if we don't gum each other up completely beforehand.

The silver lining to that is, while you won't be able to put he bite on the dentist, he won't be able to put the bite on you, either.

Our only hope lies in stepped up research, says Dr. Sognaes. Or maybe better teeth.

Toothlessness would do some-

thing to our language. How would it sound for a congressman to say, "We need a law with gums in it!"

Not having any teeth would eliminate one of life's pleasanter pastimes, too. What is more fun than walking out of a dentist's office?

Painstaking a dentist is something like a preventive war. You pay and pain now to avoid a longer ache later.

Television on the ceiling might help.

Your insurance policies should "Match Up"

To prevent "holes" or expensive overlaps in your insurance coverage, your policies should all be written by one agent (us, we hope, naturally.)

The reason is, policies can be made to supplement each other wisely and economically. Often, several policies can be combined in one at considerable saving.

And an over-all knowledge of your insurance coverage, may reveal to us that you are omitting some important protection that you should have.

Carry matched insurance—not "patched" insurance.

OPTIC NERVE GIVES

COLOR BLINDNESS CLUE
GENEVA, N. Y. (UP)—Color blindness may be related to an irregularity of the optic nerve, experiments by two psychology students at William Smith College indicate.

Helen Gardner, Wayne, Pa., and Teressa Mondy, Oswego, N. Y., worked for six months with 10 persons of normal vision and 10 who were color-blind to some degree.

Using a device to map the blind spot or optic disc in the right eye of each subject, they observed that 90 per cent of the normally sighted persons tested had elliptically shaped discs. An equal per centage of the color-blind persons had irregularly shaped discs.

Shelton MacLeod, professor of psychology at Hobart and William Smith Colleges, who supervised the experiment, believes the correlation of abnormally shaped discs to color blindness is significant.

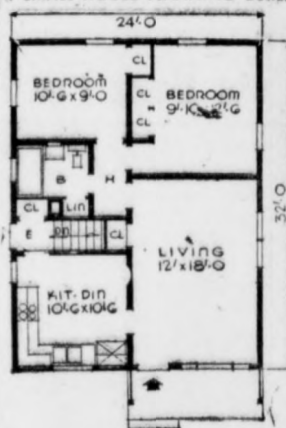

The students are now busy mapping the left eyes of their subjects.

STRANGE THINGS ARE HAPPENING IN NATCHEZ
NATCHEZ, Miss. (UP)—The only case on record of three women keeping a secret for four years occurred here.

It involved the development of the Melrose silver pattern by Gorham in honor of Melrose, one of the famed ante-bellum mansions here.

The firm arranged in 1941 with Mrs. George L. D. Kelly, owner of Melrose, and the presidents of the Natchez and Pilgrimage Garden Clubs—Mrs. Joseph Dixon and Shirley Boatner—to issue the pattern.

SMITHSONIAN GETS ITHACA CALENDAR CLOCK
FREEVILLE, N. Y. (UP)—One of the once world-famous Ithaca calendar clocks has gone to the Smithsonian Institution in Washington.

Postmaster W. Franklin Moore sent the 80-year-old family clock to the Smithsonian after being told by Curator, Frank Taylor, that it would be "an addition to our collection and we will be grateful for it."

Moore was surprised to learn the collection lacked an Ithaca clock. More than half a million of them had already been made by 1876, when it was the only calendar clock to receive an

award at the Philadelphia Centennial Exposition.

The clock sent to the Smithsonian originally was owned by Moore's grandfather.

WELL-BREAD BOY
NEWPORT, R. I. (UP)—Police Officer John H. Tingley heard a pouncing noise as he walked his beat and traced the sound to a large closed bread box near a building. He lifted the lid and saw eight-year-old Peter Casey who explained: "I just wanted to play and climbed inside, then I couldn't get out." He had been trapped an hour.

HANDY TREE
STURDVANT, Wis. (UP)—Richard Fitzgerald can't wait until spring when the tree growing in his bathroom puts out its leaves. The tree popped through the door of the bathroom and is growing alongside the tub. It is now about a foot high, and Fitzgerald said his family will use it to hang clothes on when it gets bigger.

OBJECTOR ARRESTED
INDIANAPOLIS, June 23 (UP)—The Federal Bureau of Investigation Monday arrested Kendall Keith Wilson, 25, Auburn, on a charge of refusing to be inducted into the armed forces. Wilson said he refused induction because of religious beliefs.

UNITES HELD TODAY
WINCHESTER, Ind., June 23 (UP)—Funeral services will be held today for Pearl Mae Conley who died Sunday in a fire that injured her mother and three of her six brothers.

Authorities said they had not yet discovered the cause of the blaze that razed the family's home. The fire broke out while Mrs. Conley and the children were sleeping upstairs.

Three of the children jumped from a window and Mrs. Conley was hurt attempting to fight the flames. Her husband, a night watchman, was at work.

LICENSE RENEWED
INDIANAPOLIS, June 23 (UP)—The Indiana Alcoholic Beverage Commission late Monday renewed the license of Vance Beverages of Evansville over objections of Republican shareholders who sought to freeze out Democratic stockholders.

Republicans George Smadel and William Tucker, who own 60 per cent of the distributorship, claimed they were forced into a marriage with the Democrats during the administration of for-

mer Gov. Henry Schricker.

The ruling came after several stormy hearings and ABC chairman Joseph B. Kyle, in announcing the decision, said "all matters have been resolved." However, Tucker, president of the firm, said the ruling "caught me by surprise."

MILLER APPOINTED
INDIANAPOLIS, June 23 (INS)—K. Richard Miller, Spencer Democrat, today was named to a four-year term on the state Veterans' Affairs Commission, replacing Richard A. McKay, Fort Wayne Democrat.

The World War II veteran is a member of the AMVETS, American Legion, and Disabled American Veterans. He served from August, 1948, to March, 1949, as Owen county veterans service officer and 1949-50 as director of public relations for the department of veterans' affairs and as first commander of Hoosiers post No. 19 AMVETS, in Indianapolis.

Miller was one of three men who planned the entire bonus procedure for the administration.

STAINS WERE BLOOD
NEWPORT, Ind., June 23.—(UP)—Stains found on the defendant's trousers and handkerchief were human blood an Indiana state police technician testified Monday in the murder trial of Robert L. Wallace on charges of slaying a Terre Haute newspaper artist.

Charles A. Davis of state police headquarters laboratory at Indianapolis said Wallace admitted wearing the trousers and handkerchief the night Terre Haute newspaper artist Vincent Broyles was shot and beaten in a "lovers lane" near Terre Haute.

Wallace, 23-year-old son of the mayor of Attica, and Bernard Mogan, Terre Haute, were accused in the slaying. Mogan is to be tried later.

The jury also heard testimony from J. T. Brassie, police reporter for the Terre Haute Tribune, who took the part of the victim when Wallace re-enacted the slaying for police Jan. 13, 1953. Brassie said Wallace located the place where the fight took place, then took hold of the reporter, saying:

"This is the manner in which I held Broyles."

Brassie said Wallace seized him under the "arm" pits and twisted his arms behind his back. The defendant, in confessions he later repudiated, claimed he held

Broyles while Mogan beat and shot him.

A third confession by Wallace also was admitted as evidence by Judge Frank Fisher over the objections of the defense. Dr. Den-

Frigidaire Electric Dehumidifier

The Frigidaire Electric Dehumidifier works on a simple refrigeration principle—moisture-laden air is drawn in over cold coils. The moisture is condensed and collected in a container—or it can be connected to a permanent drain. Has built-in permanent-type filter powered by Meler-Miser.

INDIANA'S ELECTRIC COMPANIES PROVIDE "PLENTY OF POWER" TO THE REMCs

• The dots on the maps above are mighty important to those served by the State's 43 Rural Electric Membership Corporations. They indicate the points of connection provided by the electric companies of Indiana, where electric power is obtained by the REMCs.

As the maps show, when REMC electric requirements increase, new points of connection are added. The electric power needs of the REMCs are always carefully considered in the expansion programs of Public Service Company and the other Indiana electric companies.

Today Public Service Company provides electric power to 31 of Indiana's REMCs at 101 connection points. An additional eight points are under contract for completion during 1953. That will make 109 points, or nearly five times as many as the Company had back in 1940—illustrating how rapidly REMC members' use of electric power has increased in the last few years.

Public Service Company is continually extending its lines and other facilities to make sure there's "plenty of power" for farm areas, for residences, and for business and industrial electric users in the 70 counties it serves. Altogether, the Company had a total investment in facilities of more than \$230 million at the end of 1952, and will have invested another \$110 million by the end of 1955.

MORE Electric POWER for Better Farming
Almost 99% of Indiana farms have dependable, low-cost electric service today. About 48% of them are served by the electric companies and the municipal systems, and about 52% of them by the REMCs which buy their power at wholesale from the electric companies.
